

PENNSYLVANIA ENVIRONMENTAL DISCLOSURE LABEL

Electric suppliers are required to provide customers with environmental disclosure labels. The label enables customers to look at the energy sources, air emissions, and information about the supplier's company in order to make a more informed choice of a power supplier. Based on the most current data available at the time of filing, please see the environmental information for electricity offered by SmartEnergy Holdings, LLC below, based on the most current data available at the time of filing.

Power Sources

Sources of electricity supplied for the 12 months ending 12/31/2024.

Sources of electricity for all SmartEnergy Holdings, LLC customers in the reporting period 1/1/2024 - 12/31/2024 was met by generation from the following sources.

| Source | Percentage of total |
|----------------------|---------------------|
| Coal | 13.05 |
| Oil | 0.21 |
| Natural Gas | 44.14 |
| Nuclear | 32.61 |
| Hydro | 0.94 |
| Biomass | 0.00 |
| Captured Methane Gas | 0.13 |
| Solar Voltaic | 2.11 |
| Solid Waste | 0.46 |
| Water | 0.00 |
| Wind | 3.75 |
| Wood/Wood Waster | 0.16 |
| Total | 100% |

Air Emissions

PJM System Mix Emissions

Carbon dioxide (CO₂), nitrogen oxides (NO_x), and sulfur dioxide (SO_x) emission rates for the PJM regions.

| Emission Type | Lbs. per MWH | Percentage of PJM Regional Average |
|-----------------|--------------|------------------------------------|
| Carbon Dioxide | 743.52 | 100% |
| Nitrogen Oxides | 0.2571 | 100% |
| Sulfur Dioxide | 0.312 | 100% |

The PJM system mix represents all resources used for electricity generation in the region. The electricity is the product of a mix of generation energy sources that is delivered over a system of wires. Information on generation energy sources, energy efficiency, environmental impacts or historical billing data is available upon request. With in-depth analysis, the environmental characteristics of any form of electric generation will reveal benefits as well as costs.

SmartEnergy provides 100% renewable electricity by purchasing Renewable Energy Certificates (RECs) from a variety of renewable energy sources. By using RECs, SmartEnergy will replenish the renewable electricity that is fed to the electricity grid in an amount matching either all of your usage for a calendar year or the renewable content amount specified in your plan description.

For more information about RECs, visit www.smartenergy.com/renewable-energy. This information is also included in SmartEnergy's annual licensing report available at the Pennsylvania Public Utilities Commission upon request. For further information, contact SmartEnergy by phone at 1-800-443-4440 (toll-free), Monday to Friday from 8 AM to 7 PM, Saturday from 9 AM to 6 PM, Eastern Standard Time. Updates to this disclosure document will be made electronically and available at www.SmartEnergy.com.
